

BARANGAY PROFILES 2019 – ITOGON

I. GENERAL INFORMATION

Origin of Barangay Name. According to stories by old folks, Gumatdang got its name from the word *sha-shangan* which means “a place for drying meat”.

In the olden times, a wealthy man named Pacalso from Amlimay, Buguias, Benguet migrated and settled in Bua, Tuding. His main livelihood was raising cattle and he was able to raise many heads. Because of the huge number of his cows, he butchered some for a feast and distributed pieces of meat to the people of the community. Then they would clean the surroundings for them to hang and dry the meat under the sun for future consumption. This was their means of preserving their meat to avoid spoilage.

BARANGAY PROFILES 2019 – ITOGON

Time passed by and Pacalso's men, whenever they were asked where they are going, they would reply, "*undawak shi Sha-shangan*" (I'm going to Sha-shangan), referring to the place where they hang and dry their meat. Due to varying pronunciations and connotations, they opted to adopt the contraction of Sha-shangan into 'Kumashangak'. The place was then named 'Kumashang' and eventually became Gumatdang.

Early Settlers. The following table contains the names of families which are known to be the first settlers in the area. It also shows the order of entry of the different ethnic groups into the barangay.

Known early settlers:

YEAR	FOUNDING FAMILIES
1850	1. PURA – First settlers of Muyot – former sitio of Tuba
1870	2. PACALSO – Pacalso – came from Amlimay, Buguias to be the first settler of Sha-shangan
	ORDER OF ENTRY OF DIFFERENT ETHNIC GROUPS
1850	1. Ibalois settled across Ambalanga River.
1870	2. The group of Kankana-eyes led by Pacalso's group settled in the village.
1920	3. Some families of Ifugao and Bontoc people arrived in the village and introduced rice farming; hence they made rice paddies/rice fields.
1920	4. Some lowlanders settled in the village during this period.
1958	5. Arrival of some Kalinga people who settled in the village.
NOTE:	Recovery of mineral deposits in the area by Nelson Peterson, first prospector to reach Gumatdang

Legal Basis of Creation

The Creation of eight barrios under the Philippine Commission Act No. 1876 was dated August 18, 1948. These barrios include Gumatdang, Ampucao, Dalupirip, Loacan, Poblacion, Tinongdan, Tuding and Virac.

PD No. 3590 – Revised Barrio Charter

PD No. 557 – Declaration of all barrios in the Philippines

Creation of Barangay Gumatdang:

Barangay Gumatdang was created in 1963

Election Data:

Registered Regular Voter as of 2018 – 977 voters

Source of date: COMELEC

Location:

Barangay Gumatdang is located at the northwest part of Itogon. It is bounded by Barangay Tuding to the north, Barangay Virac to the south, Barangay Ucab to the east, and Baguio City to the west.

The municipal hall is located 17 kilometers away from the barangay with reference point at Turning Point – Mill Site. The Provincial Capitol in La Trinidad is 21 kilometers away, while the city of Baguio is 15 kilometers away from the barangay.

II. NATURAL / PHYSICAL PROFILE

A. Land Area and Land Use

Gumatdang is second smallest barangay in the municipality of Itogon in terms of area. It has a total land area of 531.40 hectares which is 1.20% of the total area of the municipality.

The existing land area of Gumatdand is classified according to its uses.

These are detailed in the following.

Existing Land Use in the Barangay

LAND USE	AREA (hectares)
Pine Forest Land	779.05
Grasslands / Open Areas	214.45
Settlement and Other Built – up Areas	151.10
Brush Lands	11.40
Total	1156.00

Source: Barangay Profile of Gumatdang 2004

B. Topography and Slope

The table below shows the topography of the area. The Barangay is generally characterized as very steep and hilly to mountainous.

Topography

RANGE	DESCRIPTION
0 – 18 %	Level to Undulating
8 – 18 %	Undulating to Rolling
18 – 30 %	Rolling to Hilly
30 – 50 %	Hilly to Mountainous
50 and above	Very Steep

C. Soil Type

The only one type of soil found in the barangay is the Bakakeng sandy clay loam.

D. Climate

The Climate is characterized by two distinct seasonal patterns, the wet and dry. The wet season is experienced mostly from May to October and dry Season for the rest of the year.

III. ECONOMIC PROFILE

A. Agricultural Production

B. Trade and Industry

Mining. Itogon, being a host to the country's premier gold mining companies is classified by national classification as a first class municipality.

Mining remains as the top economic earner despite the closure of big mining companies in the past decade. The recent surge of the price of gold has revived the mining industry. Small-scale mining operations currently prevail over the abandoned quarries of the big companies that have earlier ceased operations.

Small-scale mining, however, does not contribute directly to the municipal treasury through existing taxation instruments. It however provides widespread employment and precipitates secondary economic derivatives that emanate from the capital dynamics of the gold enterprise.

The table below shows the tabulation of the mining areas within the barangays of Itogon.

TABULATION of MINING AREAS

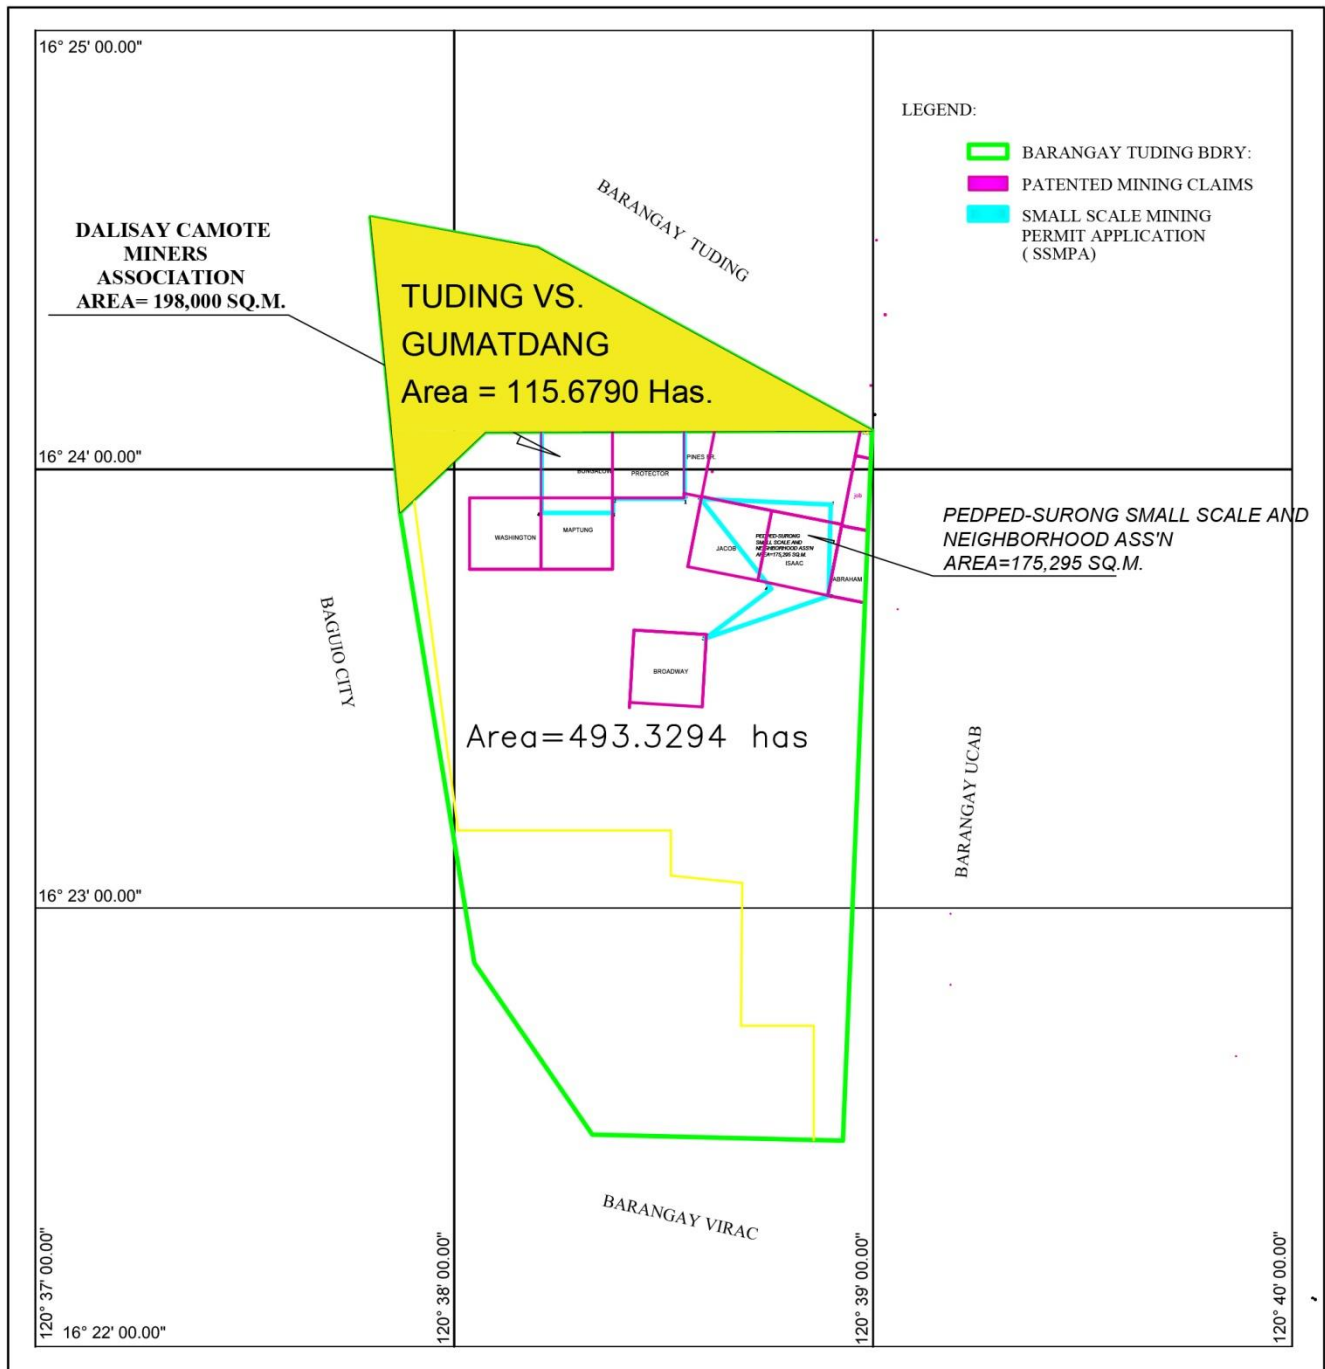

BARANGAY	PATENTED MINING CLAIMS	LEASED MINING CLAIMS	TOTAL AREA OF CLAIMS
Ampucao	253.88	500.69	754.57
Dalupirip			
Gumatdang	72.77	77.05	149.82

Tuding	142.87	40.15	183.08
Ucab	328.72	58.71	387.43
Virac	35.97	29.14	65.11
TOTAL	983.67	1150.93	2164.60

SOURCE: Itogon ADSDPP

After the devastation of Typhoon Ompong in the province that recorded casualties in some part of Itogon, mining was suspended in the whole province of Benguet. Due to the closure of mining the miners appealed to the concern agency for consideration but the only allowed are those who have approved Minahang Bayan permitted by the DENR.
