

## I. GENERAL INFORMATION

**Origin of Barangay Name.** The present site of the Catholic Mission of Itogon was once called ‘Balingway’, now Poblacion. But before it was inhabited, the church site was abundant with fresh water, fishes, games and *Balingway* trees. The said trees have long vines drooping and curled around their branches. The abundance of the sturdy looking trees was the basis of why the place was called *Balingway*.

Further, during the Spanish colonization in 1880’s, the Spaniards wanted to establish their civil government in Balingway, however, their officials were frightened because they have heard of many stories about encounters between their fellow Spaniards and the kinship group of Boa, Antamok and Tuding. Nonetheless, the Spaniards wanted to befriend and offer a *Capitan* position to the Balingway people. Right away, the different chiefs namely Shomingkis, Budong, Balbines, Tiangao and Maingpis assigned Codeng, who is living in Balingway and one of their field leaders, to accept the Spaniard’s offer. Without hesitation, Codeng then accepted the offer and became the first *Capitan* of the new Spanish Pueblo. He was known as Codeng Del Pueblo of Itogon.

In the 1990’s, the Americans established control in Balingway, henceforth, officially named as Poblacion, although, in record, it was called Itogon.

**Early Settler.** The following table contains the names of families which are known to be the first settlers in the area. It also shows the order of entry of the different ethnic groups into the barangay.

Known early settlers

YEAR	LIST OF KNOWN EARLY SETTLERS	
	Founding Families:	
1930	1. Shumingkis (Fianza) 2. Maingpis 3. Balbines	4. Tiangao 5. Budong 6. Chanel (Sanil)
Order of entry of settlers from different ethnic groups		
1. Ibaloi 2. Iowak 3. Kankana-ey 4. Kalanguya 5. Bontoc	6. Ifugao 7. Kalinga 8. Ilocano 9. Tagalog	

Source: Itogon ADSDPP

**Creation of the Barangay.** Barangay Poblacion was created on September 21, 1974.

**Legal Basis of Creation.** The creation of eight (8) barrios under the Philippine Commission Act No. 1876 was dated August 18, 1948. These are Poblacion, Ampucao, Dalupirip, Gumatdang, Loacan, Tinongdan, Tuding and Virac.

- PD No. 3590 - Revised Barrio Charter
- PD No. 557 - Declaration of all barrios in the Philippines

**Location.** Barangay Poblacion is located at the central part of Itogon. It is bounded by Barangay Loacan to the north, Barangays Ampucao and Dalupirip to the south, Barangays Tinongdan and Dalupirip to the east and Barangays Ucab and Virac to the west.

The municipal hall is located within the barangay. The Provincial Capitol in La Trinidad is 26 kilometers away, while the city of Baguio is 20 kilometers away from the barangay with the municipal hall as reference point.

**Election Data.** After the barangay elections held on October 29, 2007, it was evident that majority of the voting population exercised their right to suffrage. Out of 1,738 who registered, 75.32% or 1,309 actually voted from the nine different clustered precincts.

## II. DEMOGRAPHIC PROFILE

### A. Population

**Population by Age Group and Sex.** The table below contains the population distribution of Barangay Poblacion according to age group and sex.

Out of the total population of 4,231 recorded in 2018, 51.38% were males and 48.62% were females.

Population distribution by age group and sex (2018)

Age	Male	Female	Total
Under 1	29	32	61
1 – 4	138	133	1271
5	43	42	85
6 – 9	206	185	391
10 – 14	205	215	420
15 – 19	193	160	353
20 – 49	985	935	1,920
50 – 59	194	156	350
60– 69	140	110	250
70 and above	41	89	130

Source: Barangay Profile of Poblacion, 2018 (Barangay Consolidated Survey)

### B. Number of Households

Total number of population and households

	2018 (BHW/BNS Survey)
Total Number of Population	4, 294
Total Number of Household	869
Total Number of Families	1,074

Source: BHW/BNS Survey, 2018

### C. Dialect Spoken

The dialects mainly used by the residents are the Ibaloi and Kankana-ey. There are some who make use of other dialects such as the Ilocano. However, the Filipino (Tagalog) and English languages are used secondarily especially in public and institutional places.

### D. Livelihood

Mining is the major source of livelihood in Barangay Poblacion, where most residents are involved in gold panning. Some also are farmers or laborers, and businessmen or traders. Further, livestock and poultry production also augment their source of income or for home consumption.

### III. NATURAL/PHYSICAL PROFILE

#### A. Land Area and Land Use

Barangay Poblacion is 5<sup>th</sup> in the municipality of Itogon in terms of area. It has a total land area of 1,803.60 hectares which is 3.60% of the total land area of the municipality.

The existing land area of Poblacion is classified according to its uses. These are detailed in the following table.

Existing land use in the barangay

Major Land Uses	Area (Hectares)	Land Use
Brush Lands	1,161.1100	64.38
Agro-Forest	312.205	17.31
Forest	170.55	9.46
Roads	47.95	2.66
Agricultural	35.375	1.96
Patented Mining Claims	34.2518	1.90
Residential	28.42	1.58
Water bodies	8.00	0.44
Institutional	5.7382	0.32
<b>TOTAL</b>	<b>1,803.60</b>	<b>100</b>

Source: Barangay Profile of Poblacion, 2004

#### B. Topography and Slope

The table shows the topography range of the area.

Topography

RANGE	DESCRIPTION
0-3%	Nearly Level
3-8%	Very gently sloping
8-18%	Gently sloping to undulating
18-30%	Sloping to moderately steep
30-50%	Very steep
Above 50 %	Water bodies
	Siltation ponds

Source: Barangay Profile of Poblacion 2004 (Bureau of Soils and Water Management)

#### C. Soil Type

The types of soil found in the barangay are Bakakeng sandy clay loam and mountain soil undifferentiated.

#### D. Climate

The climate is characterized by two distinct seasonal patterns, the wet and dry. The dry season is experienced from November to April and the wet season from May to October.

Due to its lower elevation, Barangay Poblacion is warmer than its neighboring barangays. Maximum temperature is 29° Centigrade, evident during summer, while minimum temperature reaches down to 15° Centigrade during the months of December and January.

#### IV. ECONOMIC PROFILE

##### A. Agricultural Production

**Crop Production.** Root crops, vegetables and fruit trees are the major crops grown in the barangay. The following table contains the details on the crops that are produced in the area.

Major crops in the barangay

Major Crops Produced	Production Cost per Hectare (Php)	Yield per Hectare (in metric tons)	Area Planted in Hectares
Root crops			
* Sweet potato	18,594/year	10 tons/ha	5 ha
* Cassava	5,998/year	10 tons/ha	6 ha
* Gabi	44,562/year		3 ha
Vegetables			
* Cucumber		7 metric tons/ha	1 ha
* Sugar Beets		None	1 ha
Tiger Grass		1,660 bundle/ha	18 ha
Fruit			
* Mango		2,500 kg/tree	10 ha

Source: Barangay Profile of Poblacion, 2004 (Seasonal Diagram Survey)

**Poultry and Livestock Production.** Livestock raised in the barangay are mostly goats, cattle, dogs and swine. Chicken and ducks are the main poultry raised in the locality commonly of native breeds and raised in a backyard farming scale.

Number of livestock and poultry

Type	Number
1. Chicken	2,053
2. Poultry	1,893
3. Goat	50
4. Swine	285
5. Dog	732
6. Cat	321
7. Cattle	45
8. Duck	180
9. Carabao	7
10. Fishery	1,150

Source: Itogon Municipal Agriculture Office, 2017

##### B. Trade and Industry

**Mining.** Itogon, being a host to the country's premier gold mining companies, is classified by national classification as a first class municipality.

Mining remains as the top economic earner despite the closure of big mining companies in the past decades. The recent surge of the price of gold has revived the mining industry. Small scale mining operations currently prevail over the abandoned quarries of the big companies that have earlier ceased operations.

Small scale mining does not contribute directly to the municipal treasury through existing taxation instruments. However, it provides widespread employment and precipitates secondary economic

derivatives that emanate from the capital dynamics of the gold enterprise. The table below shows the tabulation of the mining areas within the barangays of Itogon.

(Source: Itogon ADSDPP)

Tabulation of mining areas

Barangays	Patented Mining Claims	Leased Mining Claims	Total Area of Claims
Ampucao	253.88	500.69	754.57
Dalupirip	-	-	-
Gumatdang	72.77	77.05	149.82
Loacan	139.59	5.77	145.36
Poblacion	9.88	439.42	449.30
Tinongdan	-	-	-
Tuding	142.87	40.15	183.02
Ucab	328.72	58.71	387.43
Virac	35.97	29.14	65.11
TOTAL	983.67	1,150.93	2,164.60

### C. List of Recently Funded Projects

The projects below were funded under the 20% Provincial Development Fund for the year 2017-2018.

Projects under the 20% Provincial Development Fund

PROGRAM/PROJECT TITLE	APPROPRIATION
<b>2018</b>	
Protection wall at Goldfield along GES	2, 000,000.00
Installation of gate at Suyo	150,000.00
Construction of waterworks system at 1300L	350, 000.00

Source: PPDO, Benguet

## V. INFRASTRUCTURE AND UTILITIES

### A. Agricultural Facilities and Support Infrastructure

**Public Market.** No public market is found in the barangay. Basic needs are bought at the city of Baguio.

**Rice Mill, Potato Seed Storage house and Greenhouses.** There are no rice mills, greenhouses and potato seed storage houses in the barangay. However, there are other agricultural equipment and facilities found in the locality and these equipment are in the care of the Municipal Agricultural Office. These facilities are listed in the table below.

Agriculture facilities

Facilities	Number
Grass Cutter	3
Coffee Depulper	1
Nursery	1
Breeding Center	1
Farrowing Crates	2
Small Farm Reservoir	2

Source: Itogon Municipal Agriculture Office, 2009

**Irrigation Systems.** There are four irrigation systems present in the locality according to the National Irrigation Administration or NIA. The following tables contains the list of the irrigation systems with the service area and number of farmer beneficiaries in the barangay.

Irrigation systems present in the barangay

Name of Source of Irrigation System	Service Area	Number of Farmer Beneficiaries
1. Beda Apat Communal Irrigation System	8	50
2. Mambolo Communal Irrigation System	9	10
3. Apalan Communal Irrigation System	10	20
4. Baloy Communal Irrigation System	18	18

Source: National Irrigation Administration, 2008

### B. Transport Infrastructure and Transportation Facilities

**Roads.** There is only one existing barangay road and five municipal roads in the locality as per Municipal Planning and Development Office (MPDO) recent records. Aside from the barangay road and municipal roads, one provincial road and four national roads also traverse the barangay.

Poblacion is accessible to any types of vehicle, and majority of the transport services being used are motorized having regular trips. The main transport facilities used by the residents are the Public Utility Jitneys (PUJs). The following are the transport facilities or vehicles owned by residents of the barangay.

Transportation facilities

Transportation Facility	Privately owned	Public utility	Total
Tricycle	3	24	27
Jeepney	6	22	28
Cars	72	0	72
Vans	32	0	32
Truck	25	0	25

Source: Barangay Officials, 2019

The following table contains the name of each road that traverses the barangay and its corresponding length and road surface.

Barangay Road

Name of Road	Length (km.)	Width (meters)	ROAD SURFACE			
			Concrete	Tirepath	Gravel	Earth fill
1. Goldfield Farm to Market Road	1.5	5				1.5

### C. Housing

The table below shows that majority of the housing units in the barangay are made out of mixed materials. The rest of the housing units are either made of reinforced concrete or temporary materials.

Type of housing

Type of Housing	No. of Households	% of Total Households
Reinforced Concrete	12	2.43
Mixed Materials	428	86.82
Strong Materials (Wooden structural framings, hollow blocks 1 <sup>st</sup> floor )		0
Temporary Makeshift Structure (Barong-barong, Cogon)	53	10.75
<b>Total</b>	<b>493</b>	<b>100</b>

Source: Barangay Profile of Poblacion, 2004 (Barangay Consolidated Survey)

### D. Communication Facilities

Communication services such as telephone, postal and telegram are all present in the barangay and they are located at the Barangay Hall. However, at present, these services are seldom used due to the availability of cell phones and its advantages like its convenience, being handy and it can be used to communicate with someone who is at the other side of the world at fast speed. At least owner/occupant of a housing unit has one cellular phone. (Source: Barangay Profile, Barangay Consolidated Survey, 2004)

**Media Facilities.** The residents mostly acquire information or news through the television and/or radio. The barangay can receive at least two local channels. In addition, some of the residents also have a personal computer connected with internet which is one means to obtain information.

**Sports and Recreation Facilities.** The next table contains the sports and recreation facilities found in the barangay. The gymnasium is located at the municipal plaza and the basketball courts are mostly located in public grounds. Other recreational facilities like swimming pools, videoke bars and billiard tables are also present in the barangay.

## Sports and recreation facilities

Facilities	Number	Type	
		Public	Private
Sports Facilities			
1. Gymnasium/Stadium	1	1	
2. Basketball Court	4	4	
3. Billiard Table	7		7
4. Videoke Bar	4		4
5. Swimming Pools	10	10	

Source: Barangay Profile of Poblacion, 2004 (Barangay Consolidated Survey)

**E. Power Supply**

**Sources of Lighting Fuel.** In 2004, majority of the total number of the households in the barangay makes use of electricity as their power source. Households located near the roads are mostly the ones who have access to electricity. The rest still make use of kerosene and candles.

## Type of lighting facility

Type of Lighting Facility	No. of Household served	% to Total Household
Electricity	400	81.14
Kerosene/Petroleum Gas	86	17.44
Candle	7	1.42
<b>Total</b>	<b>493</b>	<b>100</b>

Source: Barangay Profile of Poblacion, 2004 (Barangay Consolidated Survey)

**Sources of Cooking Fuel.** Most of the total households in the area make use of LPG to cook their food. Others make use of wood, kerosene and electricity. The following table shows the cooking facilities with the corresponding number and percentage of households who are utilizing it.

## Type of cooking facility

Type of cooking Facility	No. of Household served	% to Total Household
LPG (Shellane, Starflame, etc.)	357	72.41
Wood	101	20.49
Electricity	18	3.65
Kerosene	17	3.45
<b>Total</b>	<b>493</b>	<b>100</b>

Source: Barangay Profile of Poblacion, 2004 (Barangay Consolidated Survey)

**VI. SOCIO-CULTURAL PROFILE****A. Health**

**Leading Causes of Morbidity.** The table below shows the leading causes of morbidity in the barangay for the past two years. Illnesses due to respiratory infections are the top causes why residents seek medical assistance at the barangay health station. Most of the affected individuals are children and elderly.

Leading causes of morbidity in all ages (2017-2018)

Cause	Total
<b>2017</b>	
1. Upper Respiratory Tract Infection (URTI)	1,924
2. Urinary Tract Infection (UTI)	422
3. Acute Tonsillopharyngitis (ATP)	187
4. Wound	117
5. Arthritis	72
6. Fever	58
7. Headache/Fever	42
8. Colds	32
9. Headache	26
10. Cough/Cold	23
<b>2018</b>	
1. Upper Respiratory Tract Infection (URTI)	1,347
2. Urinary Tract Infection (UTI)	435
3. Cough/Cold	269
4. Acute Tonsillopharyngitis (ATP)	192
5. Arthritis	106
6. Wound	84
7. Headache	44
8. Colds	42
9. LBM	40
10. Fever/Headache	39

Source: Itogon Municipal Health Office

**Leading Causes of Mortality.** The table below contains the leading causes of death in barangay from 2006 to 2008.

Leading causes of mortality in all ages (2006-2008)

Causes	Total
<b>2006</b>	
1. Acute Myocardial Infarction (MI)	1
2. Cardiovascular Disease (CVD)	1
3. Cancer (colon)	1
<b>2007</b>	
1. Accident	2
2. Cancer (lung)	1
3. Diabetes Mellitus (DM), Complicated	1
<b>2008</b>	
1. Pneumonia	1

Source: Itogon Municipal Health Office

**Live Births and Infant Mortality.** No cases of infant death were recorded by the Municipal Health Office for the past three years. The following table contains the number of live births recorded by the Barangay Midwife.

#### Live Births

	2006	2007	2008
Live Birth	64	76	68

Source: Itogon Municipal Health Office

**Health Facilities and Manpower.** The only hospital found in the municipality is located at barangay Tinongdan, the Itogon Municipal Hospital (IMH). However, the Municipal Health Office (MHO) is found in the barangay and is situated at the municipal plaza.

One barangay health station is also present within the barangay and is assigned with a midwife. There are nine barangay health workers and three barangay nutrition scholars detailed to the community to monitor the health condition of the residents and provide the needed assistance. The MHO is where the doctor, nurses, dentists and sanitary inspector are stationed and the services they render are municipal wide.

**Water Supply.** All households of the barangay have access to water supply and most are benefiting from the water works constructed by the government. Majority of the total number of households in the barangay has the level III classification of water supply in which water can reach directly into the kitchen of these households through pipelines.

#### Water Supply

Existing Water Supply	No. of Household served	% to Total Household
Level I	24	4.48
Level II	56	10.45
Level III	456	85.07
<b>Total</b>	<b>536</b>	<b>100</b>

Source: Itogon Municipal Health Office, 2008

**Toilet Facilities.** The Rural Sanitary Inspector detailed at the Rural Health Unit is monitoring the compliance of all households to sanitary practices being promoted by all levels of governance like having a sanitary toilet. Majority of the households in the barangay have sanitary toilets. Residents with unsanitary toilet must improve their toilet facility and make it sanitary for the comfort and safety of the users and their neighbors as well to prevent the occurrence of diseases.

#### Toilet Facilities

Type of Toilet Facility	Number of Household
Sanitary Toilet (eg. Water Sealed)	451
Unsanitary Toilet (eg. Open pits)	85
<b>Total</b>	<b>536</b>

Source: Itogon Municipal Health Office, 2008

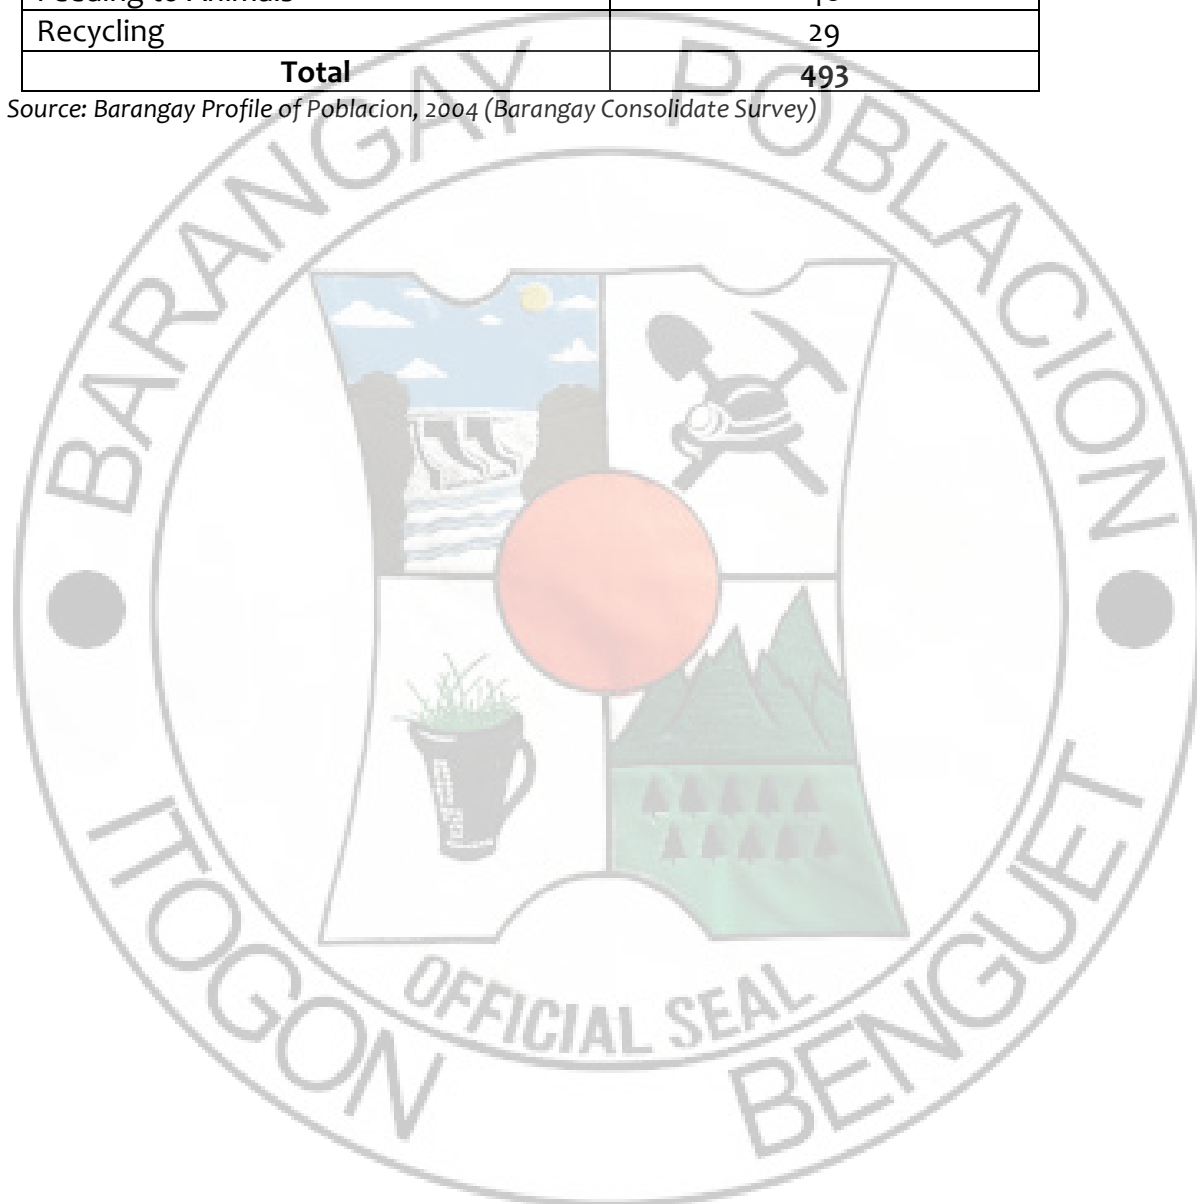

**Garbage Disposal System.** Most household in the barangay practice open dumping and burning method as a way of disposing garbage which are considered unsanitary and hazardous to health. The residents should be encouraged to practice more of the sanitary methods like composting, segregation and recycling.

The following table shows the number and percentage of households with the corresponding garbage disposal method they employ.

Garbage disposal method being employed by the residents

Manner	Number of Household
Open Dumping	211
Burning	172
Composting	26
Drying	7
Feeding to Animals	48
Recycling	29
<b>Total</b>	<b>493</b>

**Secondary Education.** There is only one private secondary school present in the barangay. Due to the newly declared curriculum with an additional two (2) school years, the private school has built building for the added school year and is now established as part of their school property to cover the now so called Senior High School. After completing secondary level, students may continue their college education at the universities and colleges in the city of Baguio.
